Offprint order

To highlight your work, the paper offprints possess a cover in colour, similar to that of the journal, resuming the title and name of the authors of the article.

An example is available at http://www.edpsciences.org/ journal/statique/doc/ aa_couv_tap.pdf

Starting from January 2010, the corresponding authors will receive, instead of the 10 free offprints, the PDF file of their article for free as soon as it is published. Paper offprints can be supplied on request by filling-in this form. Only multiples of 50 are accepted.

Please include an order with this form.

Prices for offprints (in journal format), including surface mail postage and handling. Customers in EU countries who are registered for VAT need to add VAT at the local rate.

□ Paper offprints (prices in Euros)

Offprints are available at the prices listed in the table, provided the order is received at the same time as the corrected proofs.

Offprints ordered after an issue has gone to press can be produced only if 300 or more are to be supplied, as the costs are then substantially higher.

For orders involving more than 32 pages or more than 500 copies, please ask for a quotation.
